## Profile

I am Nicolas Del Rosario, a highly skilled **front-end** development professional with a solid understanding of HTML, CSS and JavaScript.
I love learning new technologies, and I am looking for an opportunity to work in an innovative and growing team.

## Projects

**Pomodoro Task Manager** ⬈
Pomodoro Task Manager is a time management tool designed to help users be more productive.

**User CRUD** ⬈
This project allows users to create, read, update and delete (CRUD) user data.
It includes a simple web interface that communicates with a serverless function to store the data in a serverless database.

**Groovy Clone** ⬈
This project is a replica of the Groovy website.
The goal is to showcase skills in web development and user interface design.
